---

## Professional Summary

Software Developer with internship experience in building scalable RESTful APIs and full-stack applications. Strong foundation in Java backend development, MERN stack, and Flutter-based mobile applications. Experienced in database design, API integration, and problem-solving through DSA.

---

## Skills

**Programming Languages:** Java (OOP, LLD), JavaScript, Python

**Backend & Databases:** Node.js, Express.js, REST APIs, MongoDB, MySQL

**Frontend & Mobile:** React.js, Flutter, HTML, CSS, Tailwind CSS

**Tools & Concepts:** Git, Docker, System Design (HLD/LLD), API Integration

**DSA:** Solved 400+ problems on LeetCode

---

## Experience

**Software Developer Intern, HashedBit Innovations**

*July 2025 – Aug 2025*

- Developed and optimized **RESTful APIs** for authentication and order management in a food ordering platform.
  - Integrated frontend, backend, and database layers to support real-time order updates.
  - Collaborated with a team using **Git, pull requests, and Agile practices** to deliver production-ready features.
- 

## Projects

**Lightweight Social Media Application**

*Dec 2025-Ongoing*

- Developed a lightweight social media application allowing users to post short messages, like and comment on posts, and follow or unfollow other users.
- Implemented **RESTful APIs** using **Express.js** for post creation, fetching feeds, liking posts, and user follow functionality with **JWT-based authentication**.
- Designed a **component-based frontend** (Feed, Post, Sidebar, UserProfile) and used React Query for efficient data fetching and state management.

**Java Console-Based Car Rental System (OOPs)**

*Oct 2025-Nov-2025*

- Developed a Java console application using **OOP concepts** (encapsulation, inheritance, polymorphism, abstraction).
- Implemented car booking, availability tracking, and rental cost calculation.
- Designed a modular, menu-driven system using classes, objects, and collections something like this

**Aadishakti – Women Safety Mobile Application (Flutter)**

*Jan 2025 – Mar 2025*

- Developed a Flutter-based mobile application enabling **real-time SOS alerts** with live location tracking.
  - Integrated **Firebase Authentication** and SQL database for secure user data storage.
  - Implemented emergency contact notifications and nearby police/hospital discovery features.
- 

## Education

**B.Tech in Computer Science & Engineering (Data Science)**

*2022 – Present*

Ajay Kumar Garg Engineering College, Ghaziabad

CGPA: 8.6

**ICSE Senior Secondary (Class XII)**

*2020 – 2021*

City Montessori School, Lucknow

Percentage: 93%

---

## Achievements

- Secured **3rd rank** in 2nd year of B.Tech for academic excellence at AKGEC.
- 

## Certifications

- Mastering Flutter – Infosys Springboard
- Data Science – Infosys Springboard
- HackerRank Problem Solving (Basic)
